High Priced Living

Sugar is retailing at 30 cents per pound, because the Government allows the extorters to do so. Clothing is soaring beyond all reason in the world as is every item of food in addition to the sugar. Products of the farmer as marketed by him, remains low. Labor does never get its fair share of the wholesale steal made upon the people. If there is a better way to make Bolshevists we cannot conceive it.

The Times condemns Bolshevism, Reds, mob violence and every form of law violation, but none of it is as bad, by far, as the open run-away steal now perpetrated on the people, and it all sanctioned by the Republican(?) Congress now in session and presided over by a Democratic(?) administration in their failure to stop it.

Winchester Supply Company Open

The wholesale firm The Winchester Supply Company has opened for business in the Perry building at Winchester.

This firm is an incorporation comprised of Judge Hardwick, Fred Blackburn and others. The fact that Powell county men head the firm, is a just reason why Powell county merchants should give them first consideration in the purchase of their supplies.

The firm starts off with every prospect for a successful business. When in Winchester, call and see them and give them an order, Mr. Powell Merchants.

John Ware in Trouble

John Ware was tried in Police court Monday morning on a charge of selling property and converting the proceeds to his own use. He was held over to Circuit court under \$200 bond and released.

Ware is accused of selling an old unused copper still, belonging to John M. Kenyon, to Aaron Frazier for junk for the sum of one dollar. Ware claims he found the still thrown away on the river, and thinking it of no value to others, took it and disposed of it for junk.

Powell County Case

In Federal Court

The case of Williams & Pitzer vs. Powell County will come up at Richmond next week in the Federal Court. All the county needs to win the case, it would seem, is for the jury trying it to make a trip over the road and view the work paying particular attention to the concrete jobs.

K. E. Association in Session

The Kentucky Educational Association is in session at Louisville this week. All four of the teachers of the Clay City Graded school are attending, and consequently the school here is adjourned until after the return of the teachers from this meeting.

Buyers Saw Mill

Geo. B. Leach has purchased a portable saw mill and is moving same to the farm of H. G. Crabtree where he will saw the timber on this place and a lot for the neighbors who will haul to the mill there.

Cox for President

Those Democrats in Kentucky who believe that Governor James M. Cox of Ohio because of his great ability and superior qualifications should be the next President of the United States, have decided to lay his claims before our Democratic voters with the hope that they will join us in securing delegates to the San Francisco convention, who will favor his nomination.

To secure a delegation from Kentucky to San Francisco it is first necessary that all Democrats who are for Cox shall attend the county mass conventions to be held in the various counties at 2 o'clock in the afternoon of Saturday, May 1st, and see that the delegates they send to the Democratic State Convention at Louisville, Tuesday, May 4th, are COX MEN.

This is no time for factional strife within the Democratic party. The man who undertakes to create the impression that the COX MOVEMENT is a movement in the interest of any individual branch, wing or faction of the Democratic party in Kentucky, is not a well-wisher for party unity and party success.

Former United States Senator John M. Camden of Versailles has accepted the chairmanship of the organization that is being made for Governor Cox in Kentucky, and that is sufficient guarantee that the movement is not to be factional.

Gov. James M. Cox of Ohio

Senator Camden in a statement given to the press, said:

"I am for Governor Cox because I believe him to be the one man who can win against the Republicans in November. He is safe, sane and liberal, has a record in Congress, and three terms as Governor of Ohio. He is a man every inch of him, and one around whom every element in the Democratic party can rally. He began life as a newsboy and made his own way. He is a sound and successful business man, has never had any serious labor trouble during his administration

in Ohio. He is broad-gauged in every respect and has proved that he can draw strength from every element of the voting population."

We endorse Governor Cox because we know James M. Cox to be one hundred per cent American, because he has demonstrated his Americanism and we know that he is the only kind of American that will be elected to the White House as the successor to Woodrow Wilson.

We know that it takes an extraordinarily good man of the Democratic party to even once carry the State of Ohio which normally is Republican by over one hundred thousand majority.

And, so we know that when a man carries Ohio three times as has Cox, he is what the fellows who go to the races call "a stake boss."

We want first a capable man in the White House and we want him to be a Democrat.

Cox is capable, Cox is honest, Cox is a Democrat, and he is the best runner in our party as it seems to us. That's why we are for Cox at this time and that's why we want Kentucky to be for Cox.

The COX HEADQUARTERS will be in the Seelbach Hotel at Louisville where communications from all who are interested in behalf of this great man should be addressed, and where all Democrats will be welcome.

CARRY THE COUNTRY WITH COX

VAUGHN'S MILL.

Mr. and Mrs. Chas. Means are the proud parents of a fine girl who arrived on the 19th.—Dolly.

Remember the speaker next Sunday at Vaughn's Mill Sunday school, at 2 o'clock. Try to be there.

Joe Clark, Winfred Davis and O. L. Daniel were business visitors at Mt. Sterling court Monday.

We have two church houses here, one has a pastor the other none; (visit versa) one has a Sunday school the other none.

David Patrick has quit drilling at 200 feet on the test oil well to get in his general crops, after which he will resume operations again.

Mr. James Clark has arrived from Old Masons' Home, Shelbyville, to spend the summer with his many relatives here. Uncle Jim is a great fisherman and will devote much of his time to that fine sport.

Thomas Curtis, Sr., 47, died at the St. Joseph Hospital in Lexington, Saturday, at 2 p. m. from burns he received the day previous while employed by The Old Dominion Oil Co. on Big Sinking.

His remains were shipped here Saturday, where they remained until Monday morning, and reshipped to Evans, Wolfe county, for interment.

Mr. Curtis was born and reared near Clay City, where he has many friends to deplore his untimely death. He is survived by a widow and five children, of Wolfe county; one sister, of Lee county, and four brothers, of this county, namely: Levi, Elledge, Benjamin and Morris. The last two named and Mrs. H. M. Curtis accompanied the deceased body to its final resting place.

TIRED, BODY AND SOUL?

Not Sick, But Still Not Yourself. Think You'll Be Better Tomorrow—Only You're Not

TRY TAKING PEPTO-MANGAN

It Isn't Sleep You Need, But A Good Tonic—More Red Blood

Everyone gets run down occasionally. Sometimes, it's week's before you get your energy, enthusiasm and happiness back again.

Any doctor will tell you to be careful in a time like this. Your body has little power of resistance, and the danger of catching some serious disease is great. Temporarily, your blood has too few "fighting" corpuscles.

It's the work of these same red corpuscles to keep you free from fatigue. Being constantly tired out—depressed in body and mind—is almost a sure sign that your blood needs help for a time.

Gude's Pepto-Mangan is a standard remedy in cases of anemia (or bloodlessness). It supplies the iron and other properties your blood needs to catch up with its task of keeping you fresh and alert in every fibre.

Pepto-Mangan has the hearty endorsement of physicians, is an agreeable tonic to take, and may be had at any drugstore in either liquid or tablet form. Both have same medicinal value.

Be sure you ask for Gude's. There is only one genuine Pepto-Mangan, and the name "Gude's" should be on every package.—Advertisement.

V-C Plant Food applied to your vegetable garden will mean big yields from little space—makes vines produce more heavily—insures a supply of fresh vegetables for home use and for canning.

Flowers Shrubs Lawns Gardens Are Helped By V-C Plant Food

Like human beings, plants need food—three kinds of it. First, Nitrogen to give a start and quick growth of good, green foliage. Then, Phosphoric Acid and Potash with which the plants build their stems and blossoms.

V-C Plant Food supplies all three kinds in the right proportions. Use it and thus give your shrubs rich green color, evidence of an even healthy growth—flower beds become more gorgeous and colorful—plants in pots and window boxes bloom better—the vegetable garden yields surprise you.

It is not necessary to have a rich soil to start with. V-C Plant Food is richer than any soil Nature ever created. It is just like putting the richest earth on top of your garden and on the soil around your flowers.

The Nitrogen in a 25-lb. bag equals in producing power the Nitrogen in 1,500 pounds of manure. V-C Plant Food is many times richer in Phosphoric Acid and many times richer in Potash.

V-C Plant Food comes in handy packages—easy to handle—sanitary—easy to apply.

Manufactured by
VIRGINIA-CAROLINA CHEMICAL CO.
(Incorporated)
RICHMOND, VA.

New Plant Food must be added each year, last year's flowers used up a large part of the fertility. Spading up the earth with a trowel, pulverizing it, mixing V-C Plant Food in thoroughly and then packing firmly, will make the kind of soil which flowers like.

to be tramping around over the
country and no home.

The overall club is growing
fast. Why not the women pat-
tern after the men and wear old
and cheap clothing, and watch
the prices tumble? But, the over-
all factories will raise their prices
until the poor working men
will suffer from effects of this
club. Something has to be done
to lower present high prices, if
one plan fails let us try another.

Join The Overall Club

The overall club is now the fad. Have you joined? Most of us have been in that crowd all the while, but now it is fashionable for Judges and other men high up in life to appear in public places and on the street in denim overalls. This is done to fight the high cost of clothing. We approve of it. If more would wear overalls, and then do the work becoming to them, instead of sitting around and living off the labor of others, things would not

be so scarce and high.

Many parasites will wear the overalls but they will not do any constructive work, for it is not their nature.

Campaign on for Cox

The campaign is on in Kentucky for Governor Cox, of Ohio, for the Democratic nomination for President. It is started right by making use of considerable advertising space in all the leading papers of the State including the Times.

The advice of the Times to the Democrats is to watch whom they nominate. Inquire diligently of new men before giving them their suffrage. If found worthy vote for them.

Circuit Court in Session

The special term of Circuit Court is now in session at Stanton with Judge Shackelford presiding. The docket of the March term will be disposed of. The regular March term was adjourned on account of the prevailing flu epidemic.

Fruit not Injured Yet

Notwithstanding the cold weather, the indications so far are that none of the fruit is killed yet, and there promises to be a bumper crop of all kinds. Ap-

ples are now in bloom and looking thrifty.

There will be a recital exercise tonight at the city school building, given by three young ladies, pupils of Mrs. Sylvia W. Russell of the splendid school at St. Helena. Ones desiring an enjoyable evening should attend. See posters for particulars.

Mr. and Mrs. Harry Daniel are moving here this week from

Lexington. Mrs. Daniel formerly lived here with her parents, Mr. and Mrs. F. C. Mize, then Miss Mary Edith Mize. We are glad to have them reside with us.

Heavy rains Tuesday put the river out of the banks and gave the farmers another set back with their work, but the attending warmer weather is making the grass grow to relieve the expensive feed situation.
